

*Final, Official Study Guide for Quiz Two*

1. Define or otherwise explain the following terms: argument, valid, sound, lemma, conjunction and analytic.
2. Define 'ontological scheme.' Present a Primitive Ontological Scheme; give examples of each kind on the scheme; state the five fundamental questions of philosophical anthropology.
3. Present a Typical Form of Materialism. How does it answer the five fundamental questions of philosophical anthropology?
4. [item dropped]
5. PEE the Argument from Mindful Sentences against TM.
- x6. EE\* the first Platonic Argument from Death – the one that makes use of a controversial definition of death -- against TM.
- x7. EE\* the second Platonic Argument from Death – the one that makes use of Leibniz's principle about identity – against TM.
8. Present and comment upon each part of Cartesian Dualism. Explain how CD answers the five fundamental questions of philosophical anthropology.
9. Discuss the relevance of Cartesian Dualism to: (a) the analysis of mindful sentences; (b) the explanation of life and death; (c) the possibility of reincarnation; (d) the possibility of disembodied survival.
- x10. EE\* the argument From Causal Interaction against Cartesian Dualism.
- x11. EE\* the argument from the Problem of Other Minds against Cartesian Dualism.
12. Be prepared for an extracto.

Note: If there are questions about items x6, x7, x10, or x11, the relevant arguments will be provided for you on the test sheet. There will be no need to *present* these arguments.
